

Minutes of Meeting – BWF Software Prototype Discussion

Date:

- April 3rd, 2026

Venue:

- BWF Office, Pune

Attendees:

- Adhik Sir (CEO of BWF)
- Keshav Sir
- Suchita Ma'am
- Pradnya Ma'am
- Website Developers:
 - Ratnesh
 - Lokesh
 - Somesh
 - Pratham
 - Yash
 - Saravanan

The meeting began with **Adhik Sir** welcoming everyone and setting the agenda for the day. The main goal of the meeting was to review and discuss the **website prototype** in detail, address any issues or concerns, and work towards finding solutions for identified challenges.

The presentation started with a focus on the Admin Page, where Ratnesh explained the features of the page. During this session, Keshav Sir, Suchita Ma'am, Pradnya Ma'am, and Adhik Sir actively participated, identifying potential loop points and brainstorming solutions. The following points were discussed:

Admin Page Discussion:

- Keshav Sir suggested that we first discuss the **Student Page** before continuing with the Admin Page
-

Student Page Discussion:

- The Student Page was presented by **Somesh**. The following points were discussed:
 1. Navigation Flow: Improve ease of use and intuitive design

2. Daily Task Access: Student and teacher interaction for task updates
 3. User Interface: Age-appropriate UI for 5th standard students
-

Additional Requirements & Decisions (Student + System Level):

1. **Age/Class-wise portal access** should be implemented for students
 2. **Daily Task System:**
 - Teachers enter data for classes 1–4
 - Students (class 5 and above) enter their own data
 - Classes 5–7 cannot view their data
 - Class 8 and above can view their data
 - Only students aged **10+** can access daily tasks
 3. **Mentor Section:**
 - Mentor notes/announcements visible for **24 hours only**
 4. **Daily Inspiration Automation:**
 - Quotes should automatically update daily
 5. **Well-being Section:**
 - 20–25 questions (prepared by ma'am)
 6. **Water Drinking Reminder Feature**
 7. **Student Engagement:**
 - Focus on simple tasks and interactive UI
 8. **Student Data Privacy:**
 - Personal info not visible below 10th standard
 9. **Student Details Fields:**
 - Name, Class, Age, Gender, Verification Document, Present Class Info
 10. **Database Decision:**
 - Daily data will be maintained
 - Server storage can be extended upon approval
 11. **Scalability:**
 - System should support **~1500 students in next 5 years**
 12. **Teacher Portal:**
 - A separate portal must be created for teachers
-

After the discussions, a **45-minute lunch break** was taken.

Post-Lunch Discussion:

- The meeting resumed with deeper discussion on the Student Page

- **Keshav Sir highlighted:**
 1. Student task visibility restrictions
 2. Need for better student engagement
 - **Suchita Ma'am suggested:**
 1. Well-being section implementation
 2. Daily inspiration automation
 - **Adhik Sir suggested:**
 1. Simplifying tasks for younger students
 2. Adding a **reward-based motivation system**
 - Keshav Sir also analyzed features from a **student perspective**, focusing on usability
-

Break Time:

- A **10-minute break** was taken
 - During this time, **Adhik Sir shared news about a new hostel** for students
-

Warden Page Discussion:

- Presented by **Pratham**
 - Suggestions by **Adhik Sir:**
 1. Incident reporting system
 2. Warden dashboard for tracking activities
 3. Role-based access system
 4. Complaint escalation system
-

Complaint & Help System Requirements:

1. Add **Get Help** and **SOS buttons** for students
2. Complaint Flow:
 - Complaints go to **Admin, Warden, Secondary Admin**
 - Teacher approval required (Partham side) before sending to Warden

- If unresolved → **Second complaint escalation**
 - 3. **Disciplinary Reporting:**
 - Teachers can report misbehaving students to Warden
 - 4. **Compliment Feature:**
 - Sent to Admin
 - 5. **SOS Feature:**
 - Sends alert to coordinator via email
-

Surprise Guest Speaker:

- Adhik Sir's mentor (pharmacy owner) gave a **motivational talk**
 - Shared life advice on **career and personal growth**
-

Machine Learning Model Presentation:

- **Lokesh** presented his ML model
 - Model was appreciated for its performance and practical use
-

Remaining Admin Page Discussion:

- **Ratnesh** continued Admin Page explanation
 1. **SOS Monitoring** for Admin
 2. **Evaluation System** (overall + specific feedback)
 3. **Yearly Report Generation**
 4. **Timeline-based Specific Reports**
 5. **Feedback System Integration**
-

Additional System Features:

1. **Notification System:**
 - Birthday notifications
 - Calendar notifications
2. **Personal Diary:**
 - Separate tab
 - Download as PDF
3. **Community Page (Social Feed):**

- Post-login landing page
 - Future support for image/video upload
 - 4. **Platform Flow:**
 - Login → Community Page → Dashboard
 - 5. **Rating System:**
 - To be improved and redesigned
-

Break Time:

- A short break was taken
-

Yash's Project Presentation:

- Topic: **Blockchain Donation Management System**
- Discussion Points:
 - Integration with donation transparency
 - Possibility of extracting **Tally data for donors**
